

## Waterproof 200w PSU 24v IP67

### Specifications

Wattage	200 W
Current	8.33 A
Output Voltage	24 V
Inrush current	60 A Peak
PF (Power Factor)	0.75mm Cables
IP Rating	IP67
Input Voltage Range	170-250v AC
Dimensions	213*95*50mm
Tc (max surface temp of unit)	85c
Max recommended load	150w

An IP67 unit which is suitable for outdoor use or use in wet or damp areas.

Designed for long term reliability and safety, this unit has built in protection against: Open Circuit, Short Circuit, Over Load and Over Heat. These units are not dimmable.

Supplied with a 1m input cable and an IP67 waterproof twist & lock connector for the low voltage side for easy connection to the LED Strip.
