- 24.2mm wide recessed plaster-in LED profile
- Perfectly smooth, flush surface finish
- Supplied complete with an opal diffuser
- Suitable for LED strip lights up to 20mm wide

Looking for a perfectly smooth, flush surface finish? Then this recessed plaster-in aluminium LED profile for LED strip is designed to do just that. Screw the profile into place and plaster over the specially designed perforated outer.

Supplied complete with an opal diffuser, ready to install. Just add LED strip in the colour you require.

Recommended LED Strip

For Single Colour use a 120 LED Strip for minimal spotting and an even light.
