

No Spotting LED Strip

## NoSpot Line10 | 2700k | 9w

### Specifications

Operating Voltage	24v
Wattage	9w Per Metre
Colour Temperature	2700k
Dimensions	10mm Wide
Min Bending Radius	20mm
IP Rating	IP21 No Coating
Lumens Per Metre	900lumens per metre
Maximum Single Length (power @ 1 end)	10m
CRI	>90
Cutting Points	50mm

### Specifications

- Wattage : 9w Per Metre
- Lumens per metre : 900
- LED's Per Metre : 480
- Colour Temperature : 2700k
- Maximum Single Length : 10m
- CRI : >90
- PCB Width : 10mm
- Cut Points : 50mm
- Operating Voltage : 24v
- Backing Tape : 3M VHB

### Description

**Line10** - absolutely no spotting - a continuous and even light along the whole length.

Made with the latest manufacturing techniques means a massive **480 LED's per metre** for no spotting even without a diffuser. This is an LED Strip which is perfect for DIY installation as it comes with a range of solder free connectors. It's small size means it can be used in most aluminium profiles whilst it's DOTFREE

performance means even very low profile profiles perform well.

It is available with **SOLDER FREE** connectors which means connection to the power supply is quick, easy and reliable (Part code NS-LINE10-PC)

It operates at 24V and a maximum of 9w per metre and if powered from one end the maximum single length is 10m, however if you want a longer length we can make this for you but you will need to provide power to both ends.

It is compatible with any of our HaloLED controls.

**NoSpot** has a 3M VHB (Very High Bond) adhesive backing for easy installation and a long term adhesion.

3 Year Warranty
